Fabrication Method:

Hot rolled

Width:

48.000 inches

Length:

12.000 feet

Cross-sectional Thickness:

0.3125 inches

Basic Shape Style:

Solid

Weight Per Unit Measure:

12.750 pounds per square foot

Minimum Yield Strength:

36000 pounds per square inch

Material:

Steel, astm a36

Material:

Steel, astm a36

Specification Data:

81348-aa-s-741/canceled/ government specification

Specification Or Standard:

Plt shape

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
