Fabrication Method:

Rolled

Width:

36.000 inches

Length:

6.000 feet

Cross-sectional Thickness:

0.0140 inches

Basic Shape Style:

Solid

Weight Per Unit Measure:

0.590 pounds per square foot

Material:

Steel, astm a526

Material:

Steel, astm a526

Surface Treatment:

Zinc

Surface Treatment:

Zinc, astm a525

Specification Or Standard:

1 type and c class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
