Fabrication Method:

Hot rolled

Width:

0.620 inches

Length:

22.250 inches

Cross-sectional Thickness:

0.0750 inches

Cross-sectional Width:

0.620 inches

Basic Shape Style:

Solid

Min. Tensile Strength (psi):

Not rated

Minimum Yield Strength:

Not rated

Special Features:

7 holes 0.280 in. Diameter center alone length

Material:

Steel, astm a569

Material:

Steel, astm a569

Surface Condition:

Pickled and oiled

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
