Fabrication Method:
Hot rolled
Width:
36.000 inches
Length:
10.000 feet
Cross-sectional Thickness:
0.2500 inches
Basic Shape Style:
Solid
Heat Treatment:
Solution heat treated
Material:
Steel, ams 5513, comp 304
Material:
Steel, ams 5513, comp 304
Surface Treatment:
Descaled
Specification Or Standard:
Composition 304 and condition annealed
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A13100
