Fabrication Method:

Hot rolled

Width:

36.000 inches

Length:

10.000 feet

Cross-sectional Thickness:

0.2500 inches

Basic Shape Style:

Solid

Heat Treatment:

Solution heat treated

Material:

Steel, ams 5513, comp 304

Material:

Steel, ams 5513, comp 304

Surface Treatment:

Descaled

Specification Or Standard:

Composition 304 and condition annealed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
