Fabrication Method:

Wrought

Width:

5.750 inches

Length:

12.250 inches

Cross-sectional Thickness:

1.1200 inches

Basic Shape Style:

Solid

Special Features:

Four corners chamfered 1.000 in. By 1.000 in., four holes 0.532 in. Min and 5.92 in. Maximum dia; item fabricated per drawing

Material:

Steel, mil-a-46100

Material:

Steel, mil-a-46100

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100

Mil-std (military Standard):

Mil-a-46100 spec.
