Fabrication Method:

Wrought

Width:

5.750 inches

Length:

12.250 inches

Cross-sectional Thickness:

1.5000 inches

Basic Shape Style:

Solid

Special Features:

Between four corners chamfered 1.000 inch by 1.000 inch; four holes 0.532 inch and 0.592 inch diameter; item fabricated and finished per drawing

Material:

Steel, mil-a-46100

Material:

Steel, mil-a-46100

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A13100

Mil-std (military Standard):

Mil-a-46100 spec.
