Fabrication Method:

Hot rolled

Length:

6.000 feet

Cross-sectional Thickness:

0.030 inches

Cross-sectional Width:

1.000 inches

End Application:

Hx unique

Basic Shape Style:

Flat

Min. Tensile Strength (psi):

75000 pounds per square inch

Minimum Yield Strength:

30000 pounds per square inch

Product Name:

Flat strapping

Material:

Steel, class 301 or 304l

Material:

Steel, class 301 or 304l

Specification Or Standard:

301 class or 304 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
