Fabrication Method:

Hot rolled

Cross-sectional Thickness:

0.250 inches

Basic Shape Style:

Solid

Min. Tensile Strength (psi):

58000 pounds per square inch

Minimum Yield Strength:

36000 pounds per square inch

Product Name:

Steel plate

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
