| Fabrication Method:                   |
|---------------------------------------|
| Rolled                                |
| Overall Height:                       |
| 4.000 inches                          |
| Overall Width:                        |
| 4.000 inches                          |
| Length:                               |
| Between 5.000 feet and 60.000 feet    |
| Left Side Flange Thickness:           |
| 0.750 inches                          |
| Basic Shape Style:                    |
| Angle                                 |
| Base Flange Thickness:                |
| 0.750 inches                          |
| Weight Per Unit Measure:              |
| 18.500 pounds per linear foot         |
| First Tip Style:                      |
| Right quarter radius                  |
| Second Tip Relationship To First Tip: |
| Not identical                         |
| Second Tip Style:                     |
| Upper radius                          |
| Left Inside Angle:                    |
| 90.0 degrees                          |
| Heat Treatment:                       |
| As fabricated                         |
| Material:                             |
| Steel                                 |
| Material:                             |
| Steel                                 |
| Shelf Life:                           |
| N/a                                   |
| Unit Of Measure:                      |
|                                       |
| Demilitarization:                     |
| No                                    |
| Fiig:                                 |
| A13100                                |
