Fabrication Method:

Cold drawn

Length:

20.000 feet

Cross Section Outside Diameter:

2.000 inches

Basic Shape Style:

Round

Material:

Nickel, qq-n-286, class a

Material:

Nickel alloy

Material Specification:

Qq-n-286, class a federal specification 1st material response

Specification Or Standard:

A class and rod form and cold drawn condition and drawn finish

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
