Fabrication Method:

Continuous cast

Length:

1.000 feet

Cross Section Inside Diameter:

2.062 inches

Cross Section Outside Diameter:

3.000 inches

Basic Shape Style:

Round w/ core

Weight Per Unit Measure:

12.280 pounds per linear foot

Heat Treatment:

F-as fabricated

Material:

Copper alloy, astm b505, alloy 958

Material:

Copper alloy, astm b505, alloy 958

Specification Or Standard:

Uns c95800 and condition as fabricated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
