| Fabrication Method:                 |
|-------------------------------------|
| Wrought                             |
| Length:                             |
| Between 10.000 feet and 12.000 feet |
| Cross Section Outside Diameter:     |
| 2.250 inches                        |
| Basic Shape Style:                  |
| Round                               |
| Weight Per Unit Measure:            |
| 14.400 pounds per linear foot       |
| Heat Treatment:                     |
| Half hard                           |
| Material:                           |
| Copper, astm b138, alloy 675        |
| Material:                           |
| Copper, astm b138, alloy 675        |
| Specification Or Standard:          |
| Uns c67500 and temper half hard     |
| Shelf Life:                         |
| N/a                                 |
| Unit Of Measure:                    |
|                                     |
| Demilitarization:                   |
| No                                  |
| Fiig:                               |
| A13100                              |
|                                     |
|                                     |
