Fabrication Method:

Wrought

Length:

Between 10.000 feet and 12.000 feet

Basic Shape Style:

Hexagon

Cross-sectional Width Across Flats:

2.000 inches

Weight Per Unit Measure:

12.600 pounds per linear foot

Heat Treatment:

Half hard

Material:

Manganese bronze, astm b138, uns c67500

Material:

Manganese bronze, astm b138, uns c67500

Specification Or Standard:

A class and half hard temper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
