Fabrication Method:

Wrought

Length:

Between 10.000 feet and 12.000 feet

Basic Shape Style:

Hexagon

Cross-sectional Width Across Flats:

0.500 inches

Weight Per Unit Measure:

0.802 pounds per linear foot

Heat Treatment:

Half hard

Material:

Bronze, qq-b-728, class a

Material:

Copper alloy 675

Material Specification:

Qq-b-728, class a federal specification 1st material response

Specification Or Standard:

A class and half hard temper and hot or cold finish and hexagonal form

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
