Fabrication Method:

Extruded

Basic Shape Style:

Hexagon

Cross-sectional Width Across Flats:

0.500 inches

Material:

Copper, qq-c-591, alloy 655

Material:

Copper alloy 655

Material Specification:

Qq-c-591, alloy 655 federal specification 1st material response

Specification Or Standard:

655 composition and rod form and as extruded temper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
