NSN 9530-01-012-5677

Metal Bar - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/9530-01-012-5677 **Fabrication Method:** Rolled Length: 12.000 feet **Cross-sectional Thickness:** 0.3750 inches **Cross-sectional Width:** 6.000 inches **Basic Shape Style:** Flat **Edge Type:** Square

Material:

Aluminum alloy 6061

Heat Treatment:

Material Specification:

T-6 solution heat treated

Qq-a-225/8 federal specification 1st material response

Specification Or Standard:

T6 temper

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A13100
