Fabrication Method:

Rolled

Length:

5.083 feet

Cross-sectional Thickness:

0.3750 inches

Cross-sectional Width:

3.750 inches

Basic Shape Style:

Flat

Material:

Nickel-chromium alloy

Material:

Nickel alloy

Specification Data:

81346-astm b443 professional/industrial association specification

Specification Or Standard:

625 alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
