Fabrication Method:

Extruded

Length:

10.000 feet

Cross-sectional Thickness:

0.2000 inches

Cross-sectional Width:

7.600 inches

Basic Shape Style:

Flat

Heat Treatment:

Recrystallized annealed

Material:

Titanium alloy, 207-4-411, comp 6al-4 (eli)

Material:

Titanium alloy, 207-4-411, comp 6al-4 (eli)

Specification Or Standard:

Condition recrystallized annealed and composition 6al-4 (eli)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
