Fabrication Method:

Extruded

Length:

12.000 feet

Cross-sectional Thickness:

0.5000 inches

Cross-sectional Width:

6.000 inches

Basic Shape Style:

Flat

Weight Per Unit Measure:

2.307 pounds per square foot

Heat Treatment:

T6 solution heat treated

Material:

Aluminum alloy ams-qq-a-200/8, alloy 6061

Material:

Aluminum alloy ams-qq-a-200/8, alloy 6061

Specification Or Standard:

Alloy 6061 and temper t6 ro t6511

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
