Fabrication Method:

Cold drawn

Length:

12.000 inches

Special Features:

Solution heat treated; cold worked; precipitation heat treat; one inch diameter; 12 foot long; c17200 alloy, temper th04; 175-215 tensile strength ksi; astm b196 ams 4534 qq-c 530 rwma class iv

Material:

Copper-beryllium alloy

Material:

Copper-beryllium alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
