**Fabrication Method:**

Rolled

**Width:**

48.000 inches

**Length:**

12.000 feet

**Cross-sectional Thickness:**

0.0900 inches

**Basic Shape Style:**

Solid

**Weight Per Unit Measure:**

1.300 pounds per square foot

**Heat Treatment:**

O-annealed

**Material:**

Aluminum alloy, ams-qq-a-250/4, alloy 2024

**Material:**

Aluminum alloy 2024

**Material Specification:**

Ams-qq-a-250/4 assn standard single material response

**Specification Or Standard:**

Alloy 2024 and condition annealed

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A13100
