**Fabrication Method:**

Rolled

**Width:**

24.000 inches

**Length:**

4.000 feet

**Cross-sectional Thickness:**

0.1250 inches

**Basic Shape Style:**

Solid

**Min. Tensile Strength (psi):**

57000 pounds per square inch

**Heat Treatment:**

Half hard

**Material:**

Copper alloy, astm b36, alloy 260

**Material:**

Copper alloy, astm b36, alloy 260

**Specification Or Standard:**

Half hard temper

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A13100
