Fabrication Method:

Rolled

Width:

96.000 inches

Length:

20.000 feet

Cross-sectional Thickness:

0.1250 inches

Basic Shape Style:

Solid

Weight Per Unit Measure:

8.000 pounds per square foot

Material:

Lead, qq-l-201, grade b

Material:

Lead alloy b

Material Specification:

Qq-l-201, grade b federal specification 1st material response

Specification Or Standard:

B grade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
