Fabrication Method:

Rolled

Width:

48.000 inches

Length:

12.000 feet

Cross-sectional Thickness:

0.1250 inches

Basic Shape Style:

Solid

Physical Form:

Flat stock

Edge Type:

Sheared

Weight Per Unit Measure:

1.764 pounds per square foot

Heat Treatment:

O-annealed

Material:

Aluminum alloy, ams-qq-a-250/11, alloy 6061

Material:

Aluminum alloy 6061

Material Specification:

Ams4025 assn standard single material response

Specification Or Standard:

Alloy 6061 and condition annealed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
