Fabrication Method:

Rolled

Width:

48.000 inches

Length:

8.000 feet

Cross-sectional Thickness:

0.1250 inches

Basic Shape Style:

Solid

Edge Type:

Sawed or sheared or slit

Cladding Thickness:

0.003 inches both sides

Weight Per Unit Measure:

1.800 pounds per square foot

Heat Treatment:

T-81 solution heat treated

Material:

Aluminum alloy mms-1410 alclad alloy 2024 76301

Material:

Aluminum alloy mms-1410 alclad alloy 2024 76301

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
