Fabrication Method:

Drawn or rolled

Width:

44.000 inches

Length:

8.000 feet

Cross-sectional Thickness:

0.5000 inches

Basic Shape Style:

Solid

Edge Type:

Any acceptable

Leveling Method:

Stretcher

Weight Per Unit Measure:

7.200 pounds per square foot

Min. Tensile Strength (psi):

Not rated

Minimum Yield Strength:

Not rated

Heat Treatment:

T-651 solution heat treated

Material:

Aluminum alloy mms-152 76301

Material:

Aluminum alloy mms-152 76301

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
