Fabrication Method:

Rolled

Width:

48.000 inches

Length:

12.000 feet

Cross-sectional Thickness:

0.0400 inches

Basic Shape Style:

Solid

Weight Per Unit Measure:

0.588 pounds per square foot

Heat Treatment:

O-annealed

Material:

Aluminum alloy, ams-qq-a-250/14, alloy 7178

Material:

Aluminum alloy, ams-qq-a-250/14, alloy 7178

Specification Or Standard:

Alloy 7178 and condition annealed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
