Fabrication Method:

Rolled

Width:

48.000 inches

Length:

12.000 feet

Cross-sectional Thickness:

0.1000 inches

Basic Shape Style:

Solid

Physical Form:

Flat stock

Edge Type:

Sheared

Cladding Thickness:

0.002 inches both sides

Weight Per Unit Measure:

1.454 pounds per square foot

Heat Treatment:

O-annealed

Material:

Aluminum alloy, qq-a-250/3

Material:

Aluminum alloy 2014

Material Specification:

Ams-qq-a-250/3 assn standard single material response

Specification Or Standard:

O temper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
