Fabrication Method:

Rolled

Width:

30.000 inches

Length:

3.000 feet

Cross-sectional Thickness:

0.2500 inches

Basic Shape Style:

Solid

Heat Treatment:

Annealed

Material:

Brass, astm b36, alloy c26800

Material:

Brass, astm b36, alloy c26800

Specification Or Standard:

Alloy c26800 and condition annealed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
