Fabrication Method:

Rolled

Width:

24.000 inches

Length:

4.000 feet

Cross-sectional Thickness:

2.0000 inches

Basic Shape Style:

Solid

Leveling Method:

Roller

Heat Treatment:

H-32 strain hardened

Material:

Magnesium, qq-m-44, az31b

Material:

Magnesium, qq-m-44, az31b

Surface Condition:

Chrome pickled

Specification Or Standard:

H26 temper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
