Width:

4.500 inches

Cross-sectional Thickness:

0.8200 inches

Basic Shape Style:

Solid

Edge Type:

Rounded

Special Features:

Repair plug, test weld, f-15 acft; 5.95 in. Long one side, 4.80 in. Opposite side; w/20 deg. Angle one side; mill to hold 0.820 thickness

Heat Treatment:

Annealed

Material:

Titanium, mil-t-9046, type 3, comp c

Material:

Titanium alloy uns r56400

Material Specification:

Mil-t-9046, type 3, comp c military specification 1st material response

Surface Condition:

Machine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100

Mil-std (military Standard):

Mil-t-9046 spec.
