Fabrication Method:

Rolled

Width:

48.000 inches

Length:

12.000 feet

Cross-sectional Thickness:

2.2500 inches

Basic Shape Style:

Solid

Heat Treatment:

T-7351 solution heat treated

Material:

Alumunum alloy, qq-a-250/12, alloy 7075

Material:

Alumunum alloy, qq-a-250/12, alloy 7075

Specification Or Standard:

Alloy 7075 and temper t7351

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
