Fabrication Method:

Rolled

Width:

35.000 inches

Length:

128.000 inches

Cross-sectional Thickness:

2.5000 inches

Basic Shape Style:

Solid

Heat Treatment:

T-7351 solution heat treated

Material:

Aluminum alloy, 207-2-417, alloy 7475

Specification Or Standard:

Alloy 7475 and temper t7351

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
