Fabrication Method:

Rolled

Width:

36.000 inches

Length:

12.000 feet

Cross-sectional Thickness:

0.7500 inches

Basic Shape Style:

Solid

Heat Treatment:

Annealed

Material:

Titanium alloy, 207-4-414, caged 80378

Material:

Titanium alloy, 207-4-414, caged 80378

Specification Or Standard:

Composition ab-1 and condition annealed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
