Fabrication Method:

Rolled

Width:

8.000 inches

Length:

15.020 inches

Cross-sectional Thickness:

2.0000 inches

Basic Shape Style:

Solid

Heat Treatment:

T-351 solution heat treated

Material:

Aluminum alloy, ams-qq-a-250/29, alloy 2124

Material:

Aluminum alloy, ams-qq-a-250/29, alloy 2124

Specification Or Standard:

Alloy 2124 and temper t351

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
