| Fabrication Method:                                    |
|--------------------------------------------------------|
| Rolled or drawn or cold finish                         |
| Width:                                                 |
| 1.500 inches                                           |
| Length:                                                |
| Between 120.000 inches and 144.000 inches              |
| Cross-sectional Thickness:                             |
| 0.2500 inches                                          |
| Basic Shape Style:                                     |
| Solid                                                  |
| Heat Treatment:                                        |
| T-651 solution heat treated                            |
| Material:                                              |
| Aluminum alloy, qq-a-225/8                             |
| Material:                                              |
| Aluminum alloy 6061                                    |
| Material Specification:                                |
| Qq-a-225/8 federal specification 1st material response |
| Shelf Life:                                            |
| N/a                                                    |
| Unit Of Measure:                                       |
|                                                        |
| Demilitarization:                                      |
| No                                                     |
| Fiig:                                                  |
| A13100                                                 |
|                                                        |
|                                                        |
|                                                        |
