Fabrication Method:

Hot rolled

Width:

48.000 inches

Length:

144.000 inches

Cross-sectional Thickness:

0.1870 inches

Basic Shape Style:

Solid

Heat Treatment:

H-32 strain hardened

Material:

Aluminum alloy, ams-qq-a-250/8, alloy 5052

Material:

Aluminum alloy, ams-qq-a-250/8, alloy 5052

Specification Or Standard:

O temper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
