Fabrication Method:

Hot finish

Width:

0.750 inches

Length:

2.000 inches

End Application:

Los angeles class ssn (688)

Basic Shape Style:

Solid

Edge Type:

Square

Product Name:

Retainer, pin

Special Features:

Two holes, 9/32 dia, 1 1/2 inch apart

Material:

Nickel, qq-n-281, class a

Material:

Nickel alloy 400

Material Specification:

Qq-n-281, class a federal specification 1st material response

Supplementary Features:

Bar is 5/16 inch thick w/special cutout on one side

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
