Fabrication Method:

Rolled

Width:

48.000 inches

Length:

8.000 feet

Cross-sectional Thickness:

0.0710 inches

Basic Shape Style:

Solid

Heat Treatment:

T-761 solution heat treated

Material:

Aluminum alloy, dms 2234, alclad 7475, cagec 88277

Material:

Aluminum alloy, dms 2234, alclad 7475, cagec 88277

Specification Or Standard:

Alclad 7475 and temper t761

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
