Fabrication Method:

Rolled

Width:

48.000 inches

Length:

8.000 feet

Cross-sectional Thickness:

0.0400 inches

Basic Shape Style:

Solid

Heat Treatment:

T-81 solution heat treated

Material:

Aluminum alloy, dms 1719, alloy 2219, grade b, cagec 88277

Material:

Aluminum alloy, dms 1719, alloy 2219, grade b, cagec 88277

Specification Or Standard:

Alloy 2219, grade b, and temper t81

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
