Fabrication Method:

Cold rolled

Length:

60.0 inches

Cross-sectional Thickness:

0.0020 inches

Cross-sectional Width:

6.0 inches

Basic Shape Style:

Flat

Physical Form:

Coil

Min. Tensile Strength (psi):

57000 pounds per square inch

Minimum Yield Strength:

52200 pounds per square inch

Product Name:

Brass shim stock

Material:

Brass

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A13100
