Enhañadian Mathada
Fabrication Method:
Extruded
End Application:
Integrated family of test equipment (ifte)
Min. Tensile Strength (psi):
45000 pounds per square inch
Minimum Yield Strength:
40000 pounds per square inch
Product Name:
Wrought aluminum plate
Heat Treatment:
T-6511 solution heat treated
Material:
Aluminum alloy, 6061
Material:
Aluminum alloy 6061
Surface Treatment:
Anodize
Surface Treatment:
Anodized
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A13100
