Fabrication Method:

Extruded

Length:

20.000 feet

Heat Treatment:

T-6 solution heat treated

Material:

Aluminum alloy ams-qq-a-200/9, alloy 6063

Material:

Aluminum alloy ams-qq-a-200/9, alloy 6063

Specification Or Standard:

T6 temper

Reference Number Differentiating Characteristics:

As differentiated by length requirement

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A13100
