Composition And Percentage:

92.20 by volume aluminum and 4.50 by volume silicon and 6.00 by volume silicon

Impurities Limitation In Percent:

Copper 0.10 maximum and iron 0.70 maximum and magnesium 0.05 maximum and manganese 0.30 maximum and titanium 0.20 maximum and zinc 0.30 maximum and other elements total 0.15 maximum and other elements ea 0.05 max

Specification Or Standard:

A composition

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T094-a
