Composition And Percentage:

99.5 by volume aluminum

Impurities Limitation In Percent:

Copper 0.05 ; zinc 0.05 ; other elements 0.10

Specification Data:

81346-astm b179 professional/industrial association standard

Specification Or Standard:

99.5a alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T094-a
