Composition And Percentage:

57.0 by weight bismuth and 26.0 by weight indium and 17.0 by weight tin

Product Name:

Bismuth alloy ingot

Special Features:

Material is astm b774 alloy 174, melting tempature 174 degrees.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T094-a
