**Composition And Percentage:**

57.0 by weight bismuth and 26.0 by weight indium and 17.0 by weight tin

**Product Name:**

Bismuth alloy ingot

**Special Features:**

Material is astm b774 alloy 174, melting tempature 174 degrees.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T094-a
