Width:

Between 4.500 inches and 4.625 inches

Thickness:

0.032 inches

Length:

Between 5.438 inches and 5.562 inches

Attachment Method:

Hole

Environmental Protection:

Corrosion resistant and hydrocarbon fuel and thermal shock resistant and weather resistant

Basic Shape Style:

Rectangular

Marking Designation:

Legend 1st side

Inscription:

Partial legend, vehicle carrier, guided missile equipment, xm730 shipping cubic-1062 cu.Ft.--, gross weight 27875 lbs ---, shipping wt 14890 lb single side

Color:

White inscription

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1, alloy 1100 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528w0

Mil-std (military Standard):

Mil-a-8625 spec.
