**Width:**

11.000 inches

**Thickness:**

0.051 inches

**Length:**

6.000 inches

**Attachment Method:**

Adhesive

**Basic Shape Style:**

Rectangular

**Marking Designation:**

Legend

**Inscription:**

Torque instructions and schematic diagram for mk7 mod 1 with cooler

**Features Provided:**

Pressure sensitive adhesive tape

**Color:**

Black inscription

**Material:**

Aluminum alloy

**Material Specification:**

Qq-a-250/8, alloy 5052, h24 federal specification single material response

**Surface Treatment:**

Anodize

**Surface Treatment Specification:**

Mil-a-8625, type 1, class 1 military specification 1st treatment response or mil-a-8625, type 2, class 1 military specification 2nd treatment response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A528w0

**Mil-std (military Standard):**

Mil-a-8625 spec.
